

# WL / WLD / WLC Cascade® Series Shower Floors

## PRODUCT FEATURES

- **Durable Molded Stone Construction**  
non-porous surface resists mold, mildew, and stains; color-through material for lasting appearance
- **Built-in Strength & Safety** molded-in support structure offers exceptional rigidity; fire-retardant properties enhance safety. Rated to 300 lbs.
- **Integral Drain** built into the molded floor so there are no seams, ensuring no leak points
- **Permanent Slip-Resistant Surface** engineered for secure footing without obstructing water flow
- **Integral Tiling Flange** built into the molding
- **Drain Lip** keeps water in the shower and off the finished floor
- **1 Year Warranty**

*QIC2 rubber gasket and color-matching strainer included. STRWL stainless steel strainer is optional.*

## Cascade® Series Shower Floors

**WL** Single Threshold

**WLD** Double Threshold

**WLC** Neo-Corner

The FIAT Cascade® Shower Floor Series is available in 3 different models and a variety of sizes to meet the needs of virtually any bathroom layout. Whether you're building multi-unit housing, upgrading a commercial facility, or installing a durable, stylish option in a home, these shower bases deliver unmatched value. Its sleek, integrated design minimizes installation complexity while maximizing performance, making it the go-to choice for professionals who demand quality without compromise.
